FINANCE FOR DEVELOPMENT (F4D) 1 JANUARY 2016 – 31 DECEMBER 2018

OXFAM
Finance for Development (F4D) is a project aiming to make public finance accountable for the vulnerable groups. The project deepens on the current work on fiscal policy to increase the degree to which the budget contributes to pro-poor public spending especially in education and health sector and social protection. It works with government agencies, development partners, academic institutions and civil society organizations to improve the accountability of national and local budget allocation and its execution especially in education, health and social protection.

The long-term outcome of the project is to see more women, youth, marginalized groups and other citizens benefit from higher quality and quantity of finance for development as well as a sustainable and inclusive financial system.

The project aims to see more citizens enjoy their basic rights and financial inclusion and experience equal opportunity in more democratic society.

**FOCUS AREAS**

- **Fiscal Policy** which focuses on pro-poor public spending (health, education and social protection)
