

## WASH Coordinator (Consortium Community Mobilization Lead)

Employment Term: Fixed-term (until 30 September 2020)  
Level: International, C1  
Location: Sittwe, Myanmar  
Closing Date: **4 August 2019**

Oxfam is a global movement of people working together to end the injustice of poverty. That means we tackle the inequality that keeps people poor. Together we save, protect and rebuild lives. When disaster strikes, we help people build better lives for themselves, and for others. We take on issues like land rights, climate change and discrimination against women. And we won't stop until every person on the planet can enjoy life free from poverty.

We are an international confederation of 19 organizations (affiliates) working together with partners and local communities in the areas of humanitarian, development and campaigning, in more than 90 countries.

All our work is led by three core values: Empowerment, Accountability, Inclusiveness. To read more about our values please click [here](#)

***Oxfam is committed to preventing any type of unwanted behavior at work including sexual harassment, exploitation and abuse, lack of integrity and financial misconduct; and committed to promoting the welfare of children, young people and adults. Oxfam expects all staff and volunteers to share this commitment through our code of conduct. We place a high priority on ensuring that only those who share and demonstrate our values are recruited to work for us.***

### The Role

Oxfam in Myanmar is looking for WASH Coordinator (Consortium Community Mobilization Lead),

### Job Purpose

The purpose of this role is to lead the implementation of the Community Engagement and Hygiene strategy for the Sittwe Humanitarian WASH programme and Oxfam WASH Team. This position will be part of the team who will lead the implementation of a multi-year programme providing high quality WASH services to more than 100,000 IDPs living in displacement camps in Sittwe, Rakhine State. Oxfam works in partnership with Solidarites International (SI) in this programme, and in close collaboration with Camp Management Agencies and other WASH actors.

Whilst the context is humanitarian, people have been living in IDP camps for five years – and the overall approach of this programme is to transition to community development approaches promoting strong community engagement and community ownership of facilities and services within the IDP camps. This requires a strong focus on the upgrading of WASH infrastructure upgrades during the first nine months, with a transition to community ownership of the infrastructure following the upgrades. Many transitional strategies are to be developed and implemented across the camps, with a view to transition of services to external agencies (government or private sector), an increase in market based approaches, greater investment in community mobilisation, accountability, protection, and new approaches to hygiene promotion.
